

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

# WALLACE'S YEAR-BOOK

## OF TROTTING AND PACING IN 1887.

CONTAINING

COMPLETE SUMMARIES OF ALL THE PERFORMANCES OF THE YEAR IN WHICH ANY HEAT WAS TROTTED OR PACED IN 2:40 OR LESS, CAREFULLY COMPARED WITH AND CORRECTED FROM THE OFFICIAL REPORTS OF THE NATIONAL TROTTING ASSOCIATION, AND THE AMERICAN TROTTING ASSOCIATION.

---

Also, a complete 2:30 list of Trotters and Pacers from the earliest dates to the close of 1886, with best records to close of 1887; a Table of New 2:30 Performers of 1887, with those that lowered their records that year; the Great Table of Performers and Producers under their Sires; Table of Sires of Dams of Performers; Table of Great Brood-mares, and Table of Fastest Records.

---

THESE TABLES EMBRACE ALL PAST TROTTING EXPERIENCES, AND ARE ALTOGETHER MORE EXHAUSTIVE AND COMPLETE THAN ANYTHING OF THE KIND EVER HERETOFORE PRODUCED.

---

By *John H. King* J. H. WALLACE,

Editor of the AMERICAN TROTTING REGISTER and WALLACE'S MONTHLY.

### VOLUME III.

NEW YORK:  
Published at the Office of WALLACE'S MONTHLY,  
280 Broadway.

1888.

-26563.

---

Entered, according to Act of Congress, in the year 1888, by

J. H. WALLACE,

in the Office of the Librarian of Congress, at Washington.

---

ARGYLE PRESS,  
PRINTING AND BOOKBINDING,  
24 & 26 WOOSTER ST., N. Y.

## ANNOUNCEMENT.

---

**I**N PLACING the third volume of the Year-Book in the hands of the breeding public, beyond a brief tabular statement of its contents little remark is called for.

The first volume of this annual, which was issued in 1886, containing the records up to the close of 1885, had a reception which demonstrated that such a work was wanted and, in stereotyped phrase, "filled a want." The fact that the Year-Book contained not merely the performances of one year, but an elaborate and complete summation of the performances of all time, revised up to the present, at once marked the work as one of unique and distinctive character and value. Giving in cheap and convenient form the cream of all trotting and pacing statistics and history, which could otherwise only be reached in a library of many volumes, it at once commended itself to students of the American horse. Being a condensation of the pith of many expensive volumes into one cheap one, the Year-Book stands without a parallel and without a competitor as a compendium of the trotting turf of America.

The second volume was a great improvement upon the first, but the third is a vastly greater improvement upon the second. The first volume was a book of 273 pages, the second was increased to 331 pages, and this volume, it will be noticed, shows an increase in bulk of about the same ratio. This additional space is chiefly devoted to improvements on the Great Table, which has been recast and elaborated. Every horse known to have sired a 2:30 trotter will now be found there with his pedigree and history, together with the performers to his credit, and such of his sons as have sired and daughters that have produced trotters. This is far and away the most valuable part of the work, being information that is given exclusively in the Year-Book, and not obtainable in any other book ever published. It is the light that guides every thinking breeder, the warp and woof of which all theories of breeding are constructed, and the foundation upon which all practices in breeding rest.

It has not been deemed expedient to preserve full summaries of races where no heat was paced or trotted in 2:40 or better, but in the book will be found a table giving every horse that made a record slower than 2:40 during the year, so that this ground is adequately covered in small space.

The tables will best be comprehended by an enumeration:

1. The 2:30 list of trotters and pacers for 1887.
2. The complete 2:30 list, forming with the foregoing an elaborate list, with pedigrees and histories of all 2:30 performers.
3. The Great Table of Performers and Producers under their sires.
4. Sires of dams of 2:30 trotters, but that have not sired trotters.

5. Table of Great Brood-Mares that have two 2:30 performers to their credit, or a performer and a producer.

6. Table of best performers and fastest records at all distances, all periods and all ways of going.

No expense has been spared in striving to make the work correct and complete. The best talent obtainable, and the best sources of information have been drawn upon. We have to thank Secretary Morse, of the National Trotting Association, and Secretary Steiner, of the American Association, for courtesy in placing the official records at our call for the purposes of the Year-Book.

The Year-Book is now an established annual, and while not now pretending to forecast improvements in future volumes, we may state that our methods of compilation will be so improved as to permit of the work being issued much earlier in the year.

J. H. WALLACE.

NEW YORK, May, 1888.

# Alphabetical List of 2:30 Horses in Harness to the Close of 1886.

EMBRACING ALL THAT HAVE MADE A LEGITIMATE RECORD OF 2:30 OR BETTER TO THAT DATE, AND THOSE THAT LOWERED THEIR RECORDS IN 1887.

It will be observed that we have given the chief Trotting Elements of all Pedigrees where known, and where Animals are Registered, References to the Volume of Wallace's American Trotting Register in which the Pedigree may be found in more extended form. These References are expressed in Roman numerals.

# THE GREAT TABLE

OF 2:30 HORSES UNDER THEIR SIRES TO THE CLOSE OF 1887,

Giving the Pedigree and History of All Sires of 2:30 Trotters, with such of their Sons and Daughters as have Representatives in the 2:30 List.

COPYRIGHT SECURED.

[This table is intended to show the blood-elements and best records of sires and performers, the date of the performance, and the number of heats in 2:30 or better. Wagon-records of 2:35 or better are treated as equivalent to harness-records of 2:30 or better. Pacers, when by trotting-sires, with records of 2:30 or better, are inserted in *Italics*. The figures in parentheses in the lists of dams practically represent the names of the different producing-mares, showing the number of producing-daughters each sire has, as well as the number of performers each of these daughters produced. An asterisk (\*) opposite the name of an animal indicates that the record was made in a contest against time. The Roman numerals (as, for instance, "IV") indicate the volume of the AMERICAN TROTTING REGISTER from which the pedigree is taken.]

**Abbott, 348**, b h, foaled 1869, by Tattler, 300; dam Norfolk Belle, by Mambrino Chief, 11, etc. Bred by Col. H. S. Russell, Boston, Mass.; owned by C. J. Paine, Boston, Mass. (IV.)
